https://trello.com/invite/b/5FdBGdSQ/3d66e109dba8b940da782f1bf14612d3/acrs-team

steven 2017-02-28 11:45:04
Apparently Asli also has a 1 hour break right now, so if we need a time to meet up in the future now would be a good time

asli 2017-02-28 11:46:04
Sori guys ma bad

ryan 2017-02-28 12:02:23
All good.

ryan 2017-03-02 14:54:47
Hello team, so far I've read over the assignment and identified objectives which we'll have to complete for part 1, I've also noticed some things we were missing which we can complete in the process of satisfying the primary objective.

ryan 2017-03-02 14:58:20
I.e. Main page - listed in the functional requirements, are you happy if I create a user story and add it to the Trello card thingy mabob? Or if your happy, I can bring it up in the next scrum meeting, so we'll have some proof of team work for the tutor.

ryan 2017-03-02 15:02:33
I've posted part of my thoughts on the Trello board under - Read through assignment specifications - card.

steven 2017-03-07 08:47:54

Tasks for this week

- class/database diagram
- start html/CSS web design
- figure out how to get PHP and MySQL running without a server, so we can test and develop easily
  There's only 3 tasks but I think both the html and the PHP/MySQL stuff can be easily split up if we can't think of any other distinct tasks

asli 2017-03-07 10:34:14
What is going to be checked next week;
product backlog sprint backlog
github repos with contribution
show working registration
acceptance test (start working on it)
-testing different criteria
-whats the pass criteria whats the fail criteria (person with this username, this password)

chrissy 2017-03-14 09:21:41
Running late to class by 10min

steven 2017-03-14 09:21:57
No problem

steven 2017-03-16 14:04:51
https://www.lucidchart.com/invitations/accept/feb2434f-41a5-4bb3-a29a-2fcbf1c0e419

Heres the database schema diagram, i completely forgot about it, sorry

Heres the database schema diagram, I completely forgot about it, sorry

ryan 2017-03-16 14:05:19
Thanks man, all good.

steven 2017-03-16 16:04:48
Ive finished the basis for a calendar showing all of the events, it was seriously too easy using
fullcalendar.io
Check it out and let me know if there's anything else I can do until the next meeting

ryan 2017-03-18 12:00:26
Hello, Scrum meeting.

steven 2017-03-18 12:00:50
Howdy

asli 2017-03-18 12:00:58
hi fren

steven 2017-03-18 12:01:06
What progress have you all made so far?

ryan 2017-03-18 12:01:14
What I've completed,

1. Revised Database schema with more detailed information taken from the Assignment requirements.
2. Create table and insert dummy records sqlscript
3. Login/Registration page, with process Login/Registration, and error message if incorrect username/password for login, and Error message if username is not Unique when registration.

What I'll do next,

Setup customer page and Owner page, I will leave <div>'s that will be used to display/implement the calender for the customer.

I don't know the layout of these pages yet so it will be quite rough at the moment.

asli 2017-03-18 12:01:52
Since I kinda put bookings into my login and registration user stories, I've changed them and now they're all about registration and login, and now finishing up the booking user stories

ryan 2017-03-18 12:03:02
ok sounds good.

chrissy 2017-03-18 12:03:35
Done my sitemap

chrissy 2017-03-18 12:03:42
Currently working on ct tho

steven 2017-03-18 12:05:29
I have found a library which can handle displaying calendar events, and I've got basic functionality of that up and running

Next I'm going to connect that to the database to show all the bookings that have currently been made.

chrissy 2017-03-18 12:06:13
Apparently i have to clean up the trelo board too

steven 2017-03-18 12:08:27
2ez
Has anyone had any difficulties? Or any questions as to what they need to be doing until Tuesday?

chrissy 2017-03-18 12:08:50
I need another thing to do

chrissy 2017-03-18 12:09:03
Seems like short tasks

steven 2017-03-18 12:09:38
Didn't we decide on general webpage layout and design?

chrissy 2017-03-18 12:09:51
Not really

chrissy 2017-03-18 12:10:00
Sitemap was the connections

chrissy 2017-03-18 12:10:07
But no layouts

ryan 2017-03-18 12:10:13
Not a definitive layout.

steven 2017-03-18 12:10:28
Then why don't you do layouts and general design?

chrissy 2017-03-18 12:10:39
Fair enough

chrissy 2017-03-18 12:10:59
Just need the main functionalities

asli 2017-03-18 12:11:28
I can create a mockup and post it just to give an idea as well

chrissy 2017-03-18 12:11:29
Is user stories completed?

chrissy 2017-03-18 12:11:36
Yeah that be good

asli 2017-03-18 12:11:43
doing the bookings now, will be finished soon 🙂

asli 2017-03-18 12:11:51
I'll use balsamiq, I like using that

chrissy 2017-03-18 12:12:26
Im burning my brain on ct atm

chrissy 2017-03-18 12:12:39
Can u update the trello borad with new tasks

chrissy 2017-03-18 12:12:54
I will easily forget

asli 2017-03-18 12:12:57
Yeah I actually haven't started anything on CT, that'll be a mess :')

asli 2017-03-18 12:12:59
Oki

asli 2017-03-18 12:13:02
I got dis

chrissy 2017-03-18 12:13:20
Im setting up ct assignment session at uni atm

chrissy 2017-03-18 12:13:29
Diane coming in about 15min

asli 2017-03-18 12:13:45
aw

chrissy 2017-03-18 12:13:51
Remember ct assignment due bew Sunday

chrissy 2017-03-18 12:13:55
Next*

chrissy 2017-03-18 12:14:12
No life for comp science students

asli 2017-03-18 12:14:26
True :')

ryan 2017-03-18 12:18:57
Ok all good with the scrum meeting?

steven 2017-03-18 12:19:14
Think so

asli 2017-03-18 12:19:23
:thumbsup_all:

ryan 2017-03-18 12:19:26
See you all Tuesday.

chrissy 2017-03-18 12:26:30
Put in trello okay

ryan 2017-03-18 12:34:09

Channels

#general

ryan 2017-03-13 12:34:05
By the way if you want to test the website, with our code and using xammp, I've modified the gitHub readme with instructions on how install xampp, where to put the local gitHub repository and how to setup up the mysql. It's located below in the readme.

ryan 2017-03-21 08:31:54
Hey I might be late, train delay on my line for 20-25 mins.

asli 2017-03-21 09:00:43
Allllllg

chrissy 2017-03-21 09:05:02
Which line was it

ryan 2017-03-21 09:05:18
South morang

chrissy 2017-03-21 09:07:56
Ahh okay

steven 2017-03-21 09:09:32
Pretty much all lines are delayed by a bit today

asli 2017-03-21 09:10:03
They're delayed almost everyday :')

steven 2017-03-21 09:11:01
Well today more than normal :P

asli 2017-03-21 09:12:02
They gotta fix this man it's very annoying

steven 2017-03-21 09:36:28
Where are ye Boi?

ryan 2017-03-21 09:37:18
3 mins out

steven 2017-03-21 09:37:21
Sweet

chrissy 2017-03-21 11:32:10
ryan: yo ryan

chrissy 2017-03-21 11:32:23
Sorry for ditching u

ryan 2017-03-21 11:32:39
All good

chrissy 2017-03-21 11:32:52
Im with asli and Steven in bldg 10

ryan 2017-03-21 11:37:27
All good im going to pick up somethings and head to my next lecture.

ryan 2017-03-23 23:13:43
Hey Asli, whenever you are free can you upload the User stories you've done/(improved ours) onto Trello please. Thanks.

asli 2017-03-24 10:49:45
Roger

chrissy 2017-03-24 11:16:52
Anyone at uni atm?

chrissy 2017-03-24 11:17:06
Im gonna work on ct

chrissy 2017-03-24 11:17:18
But can work on sept too

chrissy 2017-03-24 11:17:29
For some pair programming

ryan 2017-03-24 13:32:13
Sorry at home till monday

asli 2017-03-24 13:38:20
I'll be at uni but late :/

ryan 2017-03-25 11:59:55
Hi team, is the 2nd Scrum weekly meeting still on?

steven 2017-03-25 12:01:06
It should be

But i haven't done my part yet

steven 2017-03-25 12:01:18

Channels

#general
#random

So I'm just going to continue with that

ryan 2017-03-25 12:01:30
All good, I understand, CT is due in 2 days if you guys are still doing it.

ryan 2017-03-25 12:01:38
or tomorrow i think.

steven 2017-03-25 12:02:02
Yeah its due tomorrow

steven 2017-03-25 12:02:40
I handed mine in yesterday, I'm planning on doing my part for SEPT Today
I'll let you guys know if I can get that done

ryan 2017-03-25 12:03:00
I've added in validation for the customer registration, to make sure there is data in it and it's not empty. Also i've updated the db schema.

steven 2017-03-25 12:03:44
Sounds good

ryan 2017-03-25 12:04:26
Hey Asli, where abouts did you upload the user story document you were working on in class? I couldn't find it in the trello board.

ryan 2017-03-25 12:05:50
Nice pug background btw.

asli 2017-03-25 12:05:52
Yeah, I haven't done my part either, well I actually added a wallpaper so you can check that out 😜

asli 2017-03-25 12:05:54
hahaahaha thanks

steven 2017-03-25 12:06:32
I think the CSS will take a fair bit longer than the 4 days you've had though

asli 2017-03-25 12:06:34
So about your use story, the idea I had in mind kinda felt wrong and we were discussing that with Steven, so I didn't want to put it since I was unsure

steven 2017-03-25 12:06:38
So don't worry too much about it

chrissy 2017-03-25 12:06:50
I havnt done any sept programming

asli 2017-03-25 12:06:52
yeah but we got enough time for design I guess

chrissy 2017-03-25 12:06:56
Im finishing on ct

steven 2017-03-25 12:07:13
I'm sorry Ryan... You're the only one who's done stuff

steven 2017-03-25 12:07:30
Probably best we delay the scrum meeting

ryan 2017-03-25 12:07:49
If possible can you just upload it, i'll see if I can think of something.

asli 2017-03-25 12:08:02
oki

asli 2017-03-25 12:08:10
we can do the meeting after CT submission if that's okay with everyone

asli 2017-03-25 12:08:23
but the other meeting is on tuesday so duno

ryan 2017-03-25 12:08:48
Scrum meeting is all good, we don't have to have everything completed, just share to the team what is going on.

ryan 2017-03-25 12:09:03
So everyone else knows what's going on.

asli 2017-03-25 12:09:04
True

steven 2017-03-25 12:09:21
I do think we should all think of what we need to do after the next meeting
Since we have to present our scrum meeting to the whole tutorial
It would be good to be able to have everything sorted before hand so we aren't floundering

steven 2017-03-25 12:09:57
So once we've finished all the tasks for this week, what will we have left to do for the assignment?

chrissy 2017-03-25 12:10:12
Do we have to have presentation slides?

Channels

#general
#random

steven 2017-03-25 12:10:48
No, its just a normal scrum meeting

steven 2017-03-25 12:10:55
just in front of everyone

asli 2017-03-25 12:11:18
is it gonna be in front of everyone :s

steven 2017-03-25 12:11:24
Yes

asli 2017-03-25 12:11:27
I think he just gonna check on every group

asli 2017-03-25 12:11:29
like he always do

asli 2017-03-25 12:11:32
and watch us

steven 2017-03-25 12:11:39
no, this week is different

asli 2017-03-25 12:11:43
☹

steven 2017-03-25 12:11:51
everyone in the group will be called upon to become scrum master as well

ryan 2017-03-25 12:11:57
" *Note that this is separate to the Weekly Progress Mark. The Scrum-meeting test will not be marked down for lack of progress; it must be an honest reflection of actual progress. However, the regular weekly assignment progress mark will of course be for the weekly progress."

ryan 2017-03-25 12:12:07
from the email lawrence sent us this week

ryan 2017-03-25 12:12:41
I guess it's a small test, to see if we understand the process of Srum.

steven 2017-03-25 12:12:55
i see

but i still think we should sort out what tasks we want to work on, in advance though

ryan 2017-03-25 12:17:42
For, what we have left for the assignment, View booking summary for business, View New Bookings, Add new employee, and add working wokring schedule

ryan 2017-03-25 12:18:07
Still need to create the user stories for them first however.

ryan 2017-03-25 12:18:23
I think we've created of them already.

ryan 2017-03-25 12:18:27
some*

asli 2017-03-25 12:18:35
view new bookings yeah

steven 2017-03-25 12:19:05
hmm

steven 2017-03-25 12:19:07
ok

steven 2017-03-25 12:21:14
i think Asli should do some of the SQL programming, and i think adding a new employee should be simple
so i think Asli should do that
Ill help out with it, and then extend it into add working schedule

steven 2017-03-25 12:21:17
how about that?

ryan 2017-03-25 12:24:38
Do you mean adding more dummy records?

steven 2017-03-25 12:25:53
no, actual implementation

ryan 2017-03-25 12:25:56
Or creating the Add new employee page

ryan 2017-03-25 12:25:57
ok

Channels

#general
#random

ryan 2017-03-25 12:26:00
yeh all good

steven 2017-03-25 12:26:09
cool

ryan 2017-03-25 12:28:32
Hey Asli, i've created a card ontop of the user stories column on trello, can you upload the doc into there, i'll work on the verification of userstories with what we've done when I can.

asli 2017-03-25 12:29:23
coolio

ryan 2017-03-25 12:29:56
thanks

chrissy 2017-03-25 12:36:29
I will do my php after ct

chrissy 2017-03-25 12:36:43
Checking on 3 questions

chrissy 2017-03-25 13:39:47
What am i supposed to code for the booking calender for business

ryan 2017-03-26 13:52:52
Hey Steve, Trello looks great now, thanks man.

steven 2017-03-26 13:54:58
Did I miss anything?

steven 2017-03-26 13:55:10
It's not as if much needed to be changed in all honesty

ryan 2017-03-26 13:55:54
Looks more logical now, before it was a bit messy.

steven 2017-03-26 13:57:06
Sweet, well let me know if there are any other changes that need to be made

ryan 2017-03-27 21:52:47
Hey guys, in Trello I have refined the Cards in the User stories, They all have definitions of the user story and acceptance criteria for the check boxes, once you've created the functional requirement and the acceptance criteria passes the test, you can tick the checkbox for the individual criteria.

ryan 2017-03-27 21:53:49
It's easier to understand when you've seen the modified card it self, so please get familiar with it tonight briefly if you can, because Lawrence will be testing us also on the usage of our trello board.

ryan 2017-03-27 21:54:28
For example check out the first card (User Story - Customer - Registration), you'll get my meaning when you've seen it.

steven 2017-03-27 21:54:52
It looks good, smart use of it tbh
Well done :D

asli 2017-03-27 22:34:04
ye seen it, looks awesome ☺

ryan 2017-04-01 11:59:05

What I've done,

1. Implemented page to show bookings for next 7 days.
2. Fixed some sql queries to show booking summaries for both customer and business.
3. Fixed some styling to center tables.

Road blocks,
Again, I'm not familiarised with phpunit, need to read up on it.

What I'm in the middle of doing,

1. We are going to use phpunit to do unit testing, however because I have not used it before it will take me a few days to get familiarised.
2. Christine and I will be setting up some unit testing I think tomorrow.

3. Need to implement, Show available booking slots for the customer.

chrissy 2017-04-01 12:07:46
We can do over skype

chrissy 2017-04-01 12:08:01
Making massive dummy data as we speak

ryan 2017-04-01 12:08:10
k

chrissy 2017-04-01 12:08:41
Made the employee work schedule

steven 2017-04-01 12:08:44
I've actually done nothing... Me and Asli haven't met up to work on adding employees

chrissy 2017-04-01 12:08:54
Now making premade booking

steven 2017-04-01 12:08:58
Is there anything I can do that's separate from that?

ryan 2017-04-01 12:09:56
Did you guys do web programmiing last year? If so did you install apache and sql server on the CSIT servers for in class tutorials?

asli 2017-04-01 12:10:16
Yeah same 😕 gonna work on it today actually

steven 2017-04-01 12:10:24
Yes we did

steven 2017-04-01 12:10:34
Did you want me to. look into that?

ryan 2017-04-01 12:10:55
Yes please, can you figure out what the versions are because I haven't a faintest clue.

ryan 2017-04-01 12:11:22
for mysql, apache, php

steven 2017-04-01 12:11:26
I'll try to get it running then

ryan 2017-04-01 12:12:38
Also do you know if for the calendar, if it's possible to disable the movement of the booking objects?

ryan 2017-04-01 12:12:48
Or not something you had tested yet?

steven 2017-04-01 12:13:15
Not something I've tested but I'm sure there's a way

ryan 2017-04-01 12:13:19
kk

steven 2017-04-01 12:13:24
I can look into that as well

ryan 2017-04-01 12:14:05
I'll try it first when I do the calendar booking, I'll come back to you on Tuesday if I can't figure it out.

steven 2017-04-01 12:15:01
No problem

ryan 2017-04-01 12:16:52
Well that's all from me. Anyone else have anything to add?

chrissy 2017-04-01 12:17:22
Hey i just realized a complexity here

chrissy 2017-04-01 12:17:32
With current booking data

chrissy 2017-04-01 12:17:49
Is there such thing as 2 bookings going at same time?

chrissy 2017-04-01 12:17:59
With 2 different employees

chrissy 2017-04-01 12:18:25
Atm im just doing 1 booking per slot

ryan 2017-04-01 12:18:41
No disregard 2 different employees at the moment. Just have it 1 booking per slot.

chrissy 2017-04-01 12:19:09
Yeah because that seems complicated without setting the foundation first

ryan 2017-04-01 12:19:32
At the moment all the customer does is book a slot with the company no selecting employee.

Channels

#general
#random

At the moment all the customer does is book a slot with the company no selecting employee.

chrissy 2017-04-01 12:23:07
Yeah im doing just pre bookings

asli 2017-04-02 17:31:58
Hey uh, I did the CSS for the homepage and I'm pre sure i did push it to github

asli 2017-04-02 17:32:21
when I run the project, the stuff I made is there but I can't see it as a "commit" on github

asli 2017-04-02 17:32:32
Can someone just check if the homepage changed?

ryan 2017-04-02 20:14:18
Hey Asli, I can't see any of your git commits on github, did you make sure you pulled the latest git repository first before you started coding?

asli 2017-04-02 20:14:55
yeah I did

asli 2017-04-02 20:14:59
yeah I can't see it on github either

asli 2017-04-02 20:15:10
but once you pull everything and go to the homepage on your laptop

asli 2017-04-02 20:15:16
can you see the differences?

ryan 2017-04-02 20:17:13
I can't see any of your push histories either on github.

ryan 2017-04-02 20:17:34
So your files aren't up there yet.

asli 2017-04-02 20:17:51
o sweet lord

asli 2017-04-02 20:17:58
let me push again

steven 2017-04-02 20:20:18
asli remember this is the one you need to push to

steven 2017-04-02 20:20:18
https://github.com/rmit-s3544280-steven-korevaar/acrs-team

rmit-s3544280-steven-korevaar/acrs-team
Contribute to acrs-team development by creating an account on GitHub.

ryan 2017-04-02 20:36:29
Hey guys. I had to reorganise the folder as it was getting really messy.
Any php files that are used to process forms are now in assets/processForms/.
And all the files/folders used in the calendar component taken from fullcalendar.io is now in assets/calendar/.

ryan 2017-04-02 20:37:45
Also I've removed any unused files that were used to test functionalites of calendar.

ryan 2017-04-02 20:38:50
All the .php files seen in the root directory of git repository is now pages that are displayed only to the users.

asli 2017-04-03 13:26:34
Ohhh finally i did push it

asli 2017-04-03 13:26:43
Was having problems before sozzy

ryan 2017-04-03 17:33:32
TEAM, Big news, we didn't need to have any unit testing for part 1.

ryan 2017-04-03 17:33:53
At minimum only Written Test cases.

ryan 2017-04-03 17:34:06
Just clarified with Lawrence.

asli 2017-04-03 17:34:14
Sweet

asli 2017-04-03 17:34:16
-steven

asli 2017-04-03 17:34:20
cool

asli 2017-04-03 17:34:21
-asli

ryan 2017-04-03 17:37:47
So at the moment we have some Written tests cases in the acceptance tests. For the Written tests

cases, we are meant to test the front end of the application, We need to put them all in a document or Trello.

ryan 2017-04-03 17:45:10
By the way, if you are implementing your part, please git pull the latest repository and branch it, they way we have evidence of branching for new functionalities, then after you are done, you can do a pull request to merge.

chrissy 2017-04-03 17:56:04
Well i was looking at test cases

chrissy 2017-04-03 17:56:20
We need to break it down into functions

chrissy 2017-04-03 17:56:46
What i have identified was the login ones

chrissy 2017-04-03 17:57:11
And register

ryan 2017-04-03 17:57:34
Yeh, that's what I was clarifying with Lawrence, we misunderstood what he meant.
We didn't need to have Unit testing.
Just Written test cases to determine if our Front end is working as intended.

chrissy 2017-04-03 17:57:49
And if implemented, the add shift, availability, employee, booking

ryan 2017-04-03 17:58:07
So at the moment, anything with Unit testing/AkA is not needed.

chrissy 2017-04-03 17:58:08
I have downloaded php unit

chrissy 2017-04-03 17:58:18
And u have to have php installed too

ryan 2017-04-03 17:58:25
Me too, wasted the weekend.

chrissy 2017-04-03 17:58:31
Well at least i have the foundations

chrissy 2017-04-03 17:58:39
So ready for next stage

chrissy 2017-04-03 17:58:46
And looking into it

chrissy 2017-04-03 17:59:01
Are we set for tomorrow?

ryan 2017-04-03 17:59:02
All good, in part 2 of the project we need to refactorise and then it will allow us to do unit testing extensively.

chrissy 2017-04-03 17:59:17
Yeah break into functions

chrissy 2017-04-03 17:59:25
More comments and yeah

ryan 2017-04-03 17:59:29
Need to create Written test cases for tomorrow.

chrissy 2017-04-03 18:00:05
For everything?

ryan 2017-04-03 18:00:12
So if possible tonight, write written test case for each Front end page.

chrissy 2017-04-03 18:00:14
Like ones we havnt coded yet?

chrissy 2017-04-03 18:00:30
I think thats a yes

ryan 2017-04-03 18:01:05
Only pages we haven't done are Add employee, Add Shift time, and show availabilites

ryan 2017-04-03 18:01:10
Leave those out for now

ryan 2017-04-03 18:01:16
Write it for the others that are done

ryan 2017-04-03 18:02:04
So login, register,
Customer Show booking summary, show available booking.
Business, Show All booking summary, Show most recent bookings

chrissy 2017-04-03 18:02:33

Channels

#general
#random

Okay i found a template

chrissy 2017-04-03 18:02:41
We can all use for the written test case

ryan 2017-04-03 18:02:49
Cool can you post it on here please.

ryan 2017-04-03 18:05:20
BTW write the written test case for failure, you should only have one case for the perfect path.

chrissy 2017-04-03 18:12:16
Err

chrissy 2017-04-03 18:12:30
Check also on trello

chrissy 2017-04-03 18:12:50
Im using phone to slack

chrissy 2017-04-03 18:13:06
Ill do a failure one too

ryan 2017-04-03 18:14:57
I'll fix what is needed in the Written Test Cases

ryan 2017-04-03 18:18:20
So if you look at the card you just put up, you'll see the exact way Lawrence expects us to write it.

ryan 2017-04-03 18:19:17
BTW I moved it over to the Sprint backlog, as that's where it should be going.

chrissy 2017-04-03 18:22:44
It appears the login one is okay

chrissy 2017-04-03 18:22:52
What else we missing?

ryan 2017-04-03 18:26:46
I've just had a look at your test case, you need exact values for the input. for example

Sample of a Test Case

Test Case No.: 1

Title: Login Page â€" Authenticate Successfully with Booking Website

Description: A registered user should be able to successfully login at the Booking Website.

Precondition: The user must already be registered with a username and password.

Test data:
Username: customer
Password: customer

Assumption: a supported browser is being used.

Test Steps:

1. Navigate to the "Booking Website".
2. In the â€™Usernameâ€™ field, enter in: customer.
3. In the â€™Passwordâ€™ field, enter in: customer.
4. Click the â€"Loginâ€™ button.

Channels

#general
#random

i. Click the do Login do button.

Expected Result: A page displaying the customers booking summary is shown.

Actual Result: Result of the actual test

Pass/Fail: [P/F]

Channels

#general
#random

ryan 2017-04-03 18:29:48
So Exactly like that, in the Lecture he was going through testing, and that's what he went over.

chrissy 2017-04-03 18:30:06
U edited the sample

chrissy 2017-04-03 18:30:08
?

ryan 2017-04-03 18:31:06
Now I have.

ryan 2017-04-03 18:31:15
We need to put it all into a document.

chrissy 2017-04-03 18:31:57
Should have one for register

ryan 2017-04-03 18:36:23
They'll need to be a lot. So one for login succes, login fail, register success, register fail and so on.

chrissy 2017-04-03 18:38:05
What happens exactly after the put all details to be registered?

chrissy 2017-04-03 18:38:11
They*

chrissy 2017-04-03 18:38:22
A message and link to login page?

ryan 2017-04-03 18:42:42
Sent back to login page to login. With a message saying successful register in green at the bottom of the register button.

chrissy 2017-04-03 18:48:11
Do we have anything regarding non unique usernames being entered at register page?

ryan 2017-04-03 18:53:05
Must be a unique username. , if not error messsage occura.

chrissy 2017-04-03 18:55:27
Okay

chrissy 2017-04-03 18:55:36
I did 3 variations for register

chrissy 2017-04-03 18:55:44
And 2 for login

ryan 2017-04-03 18:56:12
Nice I'll do some for the others when i get home.

chrissy 2017-04-03 18:57:27
It be on trello

ryan 2017-04-03 18:57:42
Roger

ryan 2017-04-03 21:33:06
Hey for the Written test cases, since we also need to submit it, I will put it in a document, I'll link it into the same card and share it.

ryan 2017-04-04 08:50:53
Hey just a heads up, I'm going to be 15 mins late. I'll be there around 9.45.

steven 2017-04-04 09:21:22
Alright

steven 2017-04-04 09:21:26
Asli?
Chrissy?

asli 2017-04-04 09:21:53
Im almost there

ryan 2017-04-04 09:23:17
You all mind if I run Scrum master today? I have a lot to tell you.

asli 2017-04-04 09:23:32
Pls do

steven 2017-04-04 09:23:47
No problrm,

ryan 2017-04-06 19:47:31
Hey Steven, for the submission of Assignment 1, we need to share your our slack, Trello and your github repository with Lawrence, can you pop him an email and share your repository before Friday afternoon please.
Here are the shared links for Slack and Trello.
Trello-
https://trello.com/invite/b/5FdBGdSQ/c18e758d729f54f1895dac9b35b3a24b/acrs-team

ryan 2017-04-06 19:47:39
Slack-

ryan 2017-04-06 19:55:02
https://acrs-team.slack.com/signup

ryan 2017-04-06 20:16:50
He just needs to click them and it should automatically join.

steven 2017-04-06 20:32:12
I'm going to be busy for the rest of the night and tomorrow morning...
Is this something that you can do?
I can quickly shoot you the links if you need though

ryan 2017-04-06 20:35:03
I don't have permission of your github repository to invite people.

steven 2017-04-06 20:35:35
I shoot that through asap

steven 2017-04-06 21:40:19
hmm i dont know how to get a shareable link for github

steven 2017-04-06 21:41:19
it doesnt look like you can

steven 2017-04-06 21:41:29
but he should be able to see our repository anyway

steven 2017-04-06 21:41:31
since its public

steven 2017-04-06 21:41:37
https://github.com/rmit-s3544280-steven-korevaar/acrs-team

rmit-s3544280-steven-korevaar/acrs-team
Contribute to acrs-team development by creating an account on GitHub.

ryan 2017-04-06 22:15:36
Hey team, I've combined the 2 sqlscripts, createTable and insertDummyRecords into a single file and removed them, so it's easier for Asli to copy and paste the source code into her mysql db and also for Lawrence to only need to run the command once when he is marking our assignment.

ryan 2017-04-06 22:16:34
I've also updated our github readme to mirror the change.

lcavedon 2017-04-07 09:47:36
@lcavedon has joined the channel

ryan 2017-04-07 14:22:12
Hey Team, I am going to create a list on Trello for the submission elements we will submit on Sunday night.

ryan 2017-04-07 14:23:20
Once it's, all completed, I will combine it into a single zip file and submit the assignment.

chrissy 2017-04-07 17:15:12
Whats missing fron test cases?

chrissy 2017-04-07 17:15:30
I dont know the full functionality of check employee availablility

chrissy 2017-04-07 17:15:38
Or something like add new employee

chrissy 2017-04-07 17:15:47
Or add shift

chrissy 2017-04-07 17:16:07
The user story appears to be incomplete for those?

ryan 2017-04-07 18:54:16
For check employee availability, it's a calendar, and the owner clicks on the date, they want to see,

it will show a day list of the employee work time.

ryan 2017-04-07 18:54:38
If you want to take a look at it, make sure you pull the latest repository.

ryan 2017-04-07 18:55:35
for Add new employee, it's just a form to add a new employee into the database, similar functionality as registering a new customer.

ryan 2017-04-07 18:55:55
I'm not sure about add shift yet, still waiting on that part.

steven 2017-04-07 18:58:03
Yeah sorry, prior commitments :/
I'll be working on it and finishing it as soon as I get home tonight
I'll keep you updated as progress is made

steven 2017-04-07 19:03:06
To get the basic functionality done should only take a few minutes to make a form and insert it into the database
Do I need to do any sort of showing the added times? Or is that covered in the cheek employee availability?

Also with adding employees, we need to have a way of showing a list of employees somewhere
Has that been done anywhere yet?

ryan 2017-04-07 19:05:02
Nope, you can either make a note saying the owner needs to enter in the employee manually, or you can create a drop down box that the owner can select the employee, and then enter in the working times for them.

ryan 2017-04-07 19:05:24
For the showing the added times, that's already covered in check employee availability

steven 2017-04-07 19:05:48
Sweet

And lastly, recurring events
How do we want to handle that?
If at all

ryan 2017-04-07 19:07:31
I've added extra work data, aka. employee work times and bookings up to the 28/04/2017, so there are 2 weeks worth of data for lawrence to assess/demo our work.

steven 2017-04-07 19:08:22
Yeah sure, but do we want to be able to say
Repeat this shift every week?

ryan 2017-04-07 19:08:59
Oh nope, I think leave it as them having to entering it manually.

steven 2017-04-07 19:09:11
Alright, too easy then

steven 2017-04-07 19:09:31
I'll be home in about 30 minutes
Will get started then o7

steven 2017-04-07 22:46:41
Sorry it took so long, but I've finished the adding employee shift times
ive tested it against the user story acceptance criteria and it meets all of them
take a look, and let me know if there are any issues

chrissy 2017-04-08 11:48:34
Heys guys whatsup

chrissy 2017-04-08 11:48:45
Whats the plan for today before submission

asli 2017-04-08 11:48:54
Hi 👋:skin-tone-2:

chrissy 2017-04-08 11:48:56
And what are we missing or needing to finish up

asli 2017-04-08 11:49:53
I'm not sure if the adding employees actually adding them to database

asli 2017-04-08 11:50:02
Other than that it looks ok 🤔

Channels
#general
#random

asli 2017-04-08 11:50:14
Oh user documentation I guess 😗

asli 2017-04-08 11:50:17
Haven't done that yet

ryan 2017-04-08 11:51:45
Adding employees add them to the database.

steven 2017-04-08 11:52:00
Easy way to check the adding employees thing is see if they turn up in the add shift section, since mine grabs all the emps from the db

ryan 2017-04-08 11:54:27
So In terms of functionality, we all good.

steven 2017-04-08 11:54:49
Sweet :D

ryan 2017-04-08 11:55:40
Just need to finish off Written test cases, User documentation, Installation/Setup of system documentation.

ryan 2017-04-08 11:56:05
And maybe go through codes and comment the functionality.

ryan 2017-04-08 11:56:30
Also authoring the code/page we've done.

ryan 2017-04-08 11:56:56
I will export trello/slack tomorrow night just before submission.

ryan 2017-04-08 11:57:16
Oh one more thing, Minutes of meeting.

steven 2017-04-08 11:58:13
I'll do the commenting of all the code if you like

asli 2017-04-08 11:58:16
Yeah I kinda skipped the last minutes document so imma do that today

ryan 2017-04-08 11:59:11
It doesn't take long just comment the ones you and asli have done, i'll do mine, because we understand what we've done.

ryan 2017-04-08 12:00:00
Hey Asli, when you're writing the user documentation for customer and owner, can you also add in pictures.

steven 2017-04-08 12:00:23
Alright, is there anything else you want me to do then?

ryan 2017-04-08 12:01:02
If you want to, you can help Asli do the user documentation also. I'll do xammp installation with pictures.

steven 2017-04-08 12:01:22
Yes sir o7

ryan 2017-04-08 12:01:44
And one more thing peer review, I'll create a document tonight, and tomorrow we can fill it in.

steven 2017-04-08 12:02:03
That's just adding instructions on each page on how to use it?
Or is it In a separate document?

ryan 2017-04-08 12:02:11
Seperate document

steven 2017-04-08 12:02:23
Ok, sweet
Do we have one set up yet?

ryan 2017-04-08 12:02:26
nope

steven 2017-04-08 12:02:33
Ok I'll do that now

ryan 2017-04-08 12:02:44
Well

ryan 2017-04-08 12:02:54
acutally im not sure if asli has already made one

ryan 2017-04-08 12:03:00
you'll have to ask her

steven 2017-04-08 12:03:07
damn, ok

chrissy 2017-04-08 12:03:56
Hmm

Hmm..

steven 2017-04-08 16:28:44
Hey, can you check out the User Documentation stuff ive done
i have no where near finished it, but just to get an idea if the general format is to your liking

ryan 2017-04-08 16:30:28
hey man, looks good

steven 2017-04-08 16:30:46
cool, when youve finished the installation guide
would you be able to put that in here?

ryan 2017-04-08 16:31:04
I'll put the installation guide in there also.

steven 2017-04-08 16:31:09
sweet

chrissy 2017-04-08 16:37:03
What else needs to be done?

ryan 2017-04-08 17:03:15
Finishing off the written test, ill work on the installation guide tonight and we'll do our peer review
tomorrow.

steven 2017-04-08 17:04:30
sweet

steven 2017-04-08 17:04:41
is that everything once thats done?

ryan 2017-04-08 17:06:22
I think so, i can't check yet as I'm not home atm.

steven 2017-04-08 17:07:36
no problem

chrissy 2017-04-08 18:03:55
Let us kno if anything

steven 2017-04-08 18:56:33
Finished the user documentation for all pages of the website

steven 2017-04-08 19:14:54
Ryan, if you wouldnt mind when you write the installation to follow similar formatting to what i've
done
and update the table of contents when youve finished
Thanks 😄

Ive had a quick look through, and it looks like everything is ready for the submission apart from the
Peer review and the webserver setup

steven 2017-04-08 19:19:53
actually, Christine have you finished all of the written test cases yet?

ryan 2017-04-08 20:00:47
Dude, nice work on the user documentation, looks great.

ryan 2017-04-08 20:01:37
I'll follow the same format, when I add the installation and setup.

steven 2017-04-09 16:15:59
Did we want to discuss the estimate of overall percentages?

chrissy 2017-04-09 16:25:37
I think we evenly distributed the load

chrissy 2017-04-09 16:26:10
Its not like i heard from other groups where everyone noticed one person not doing enough

chrissy 2017-04-09 16:26:23
Besides if u say one person deserves more

chrissy 2017-04-09 16:26:43
U kno they gonna be taking everyones marks to be added to their own

chrissy 2017-04-09 16:27:11
Will u say otherwise?

steven 2017-04-09 16:31:49
so you want to say it was perfectly 25% each?

chrissy 2017-04-09 16:32:12
That is my opinion

chrissy 2017-04-09 16:32:18
Ur opinion may differ

Channels

#general
#random

steven   2017-04-09 16:33:35
im fine with saying its 25% each
but we should get the opinion of Ryan and Asli first

Also Chrissy, remember to fill out the Peer Assessment sheet that Ryan sent to us

chrissy   2017-04-09 16:34:07
I just finished work

chrissy   2017-04-09 16:34:16
And im taking bus home

steven   2017-04-09 16:34:24
Fair enough, just wanted to remind you just in case

chrissy   2017-04-09 16:34:31
The dreaded replacement bus

steven   2017-04-09 16:34:37
oh dear, yeah

steven   2017-04-09 16:34:41
have fun with that hahaha

steven   2017-04-09 16:34:56
those busses are pretty awful

chrissy   2017-04-09 16:35:31
Lots of construction on my line

chrissy   2017-04-09 16:35:42
The railway crossing removal

steven   2017-04-09 16:35:58
fun times ahead 😄

chrissy   2017-04-09 16:36:14
Yeah for sure

chrissy   2017-04-09 16:36:24
Ill complete the form when im home

steven   2017-04-09 16:36:36
sweet

asli   2017-04-09 16:49:22
I think you should put more percentage to Ryan than me since he did heaps :)

asli   2017-04-09 16:49:46
You can arrange my percentage, I trust on ya :3

ryan   2017-04-09 18:41:09
Yo, i'm just exporting trello, slack and git i'll submit it, in about an hour after testing all files extract
appropriately.

steven   2017-04-09 18:41:32
Awesome 😄

steven   2017-04-09 18:41:45
Seems like assignment submission is a go then

ryan   2017-04-09 19:24:00
Does anyone want to add anything else to the peer submission? Or can I export to Pdf now.

steven   2017-04-09 19:24:17
i think its all good

ryan   2017-04-09 20:06:25
@ryan uploaded a file:

ryan   2017-04-09 20:06:34
Submitted

steven   2017-04-09 20:06:43
Yeeeee boiiiiiii

steven   2017-04-09 20:06:50
GG team

asli   2017-04-09 20:06:57
Thanks ryan

ryan   2017-04-09 20:07:12
I think we need to do a small demo on tuesday

ryan   2017-04-09 20:07:28
Don't know if it's marked or not.

steven   2017-04-09 20:07:28

That should be easy though

asli 2017-04-09 20:09:53
Yeah we should

asli 2017-04-09 20:09:59
We will*

chrissy 2017-04-09 20:20:16
Its fine

chrissy 2017-04-09 20:20:36
We have a pretty clear idea what to showcase

ryan 2017-04-15 12:01:27
Yo, how's everyone going?
I've not touched the assignment since Tuesday, been taking a few days off studying, so no progress on my end yet, I'll have the refactoring done by Tuesday though.

steven 2017-04-15 12:02:00
Yeahhhh... Same here

asli 2017-04-15 12:02:22
Hey, yeah kinda same. Been looking at this logging and got something out of it but not %100, I need more time ☹

ryan 2017-04-15 12:09:24
Well, if that's all, you all happy to meet up on Slack again this coming Tuesday?

asli 2017-04-15 12:09:58
Yeah sure

ryan 2017-04-15 12:10:20
Same time as our class?

ryan 2017-04-15 12:10:24
so 9.30am?

steven 2017-04-15 12:10:26
We can, I just may respond a bit late, I'm going to have a really busy few days from Monday onwards

ryan 2017-04-15 12:10:32
ok

ryan 2017-04-15 12:10:38
ummm 12.00pm?

asli 2017-04-15 12:20:33
yeah better 🙂

steven 2017-04-18 13:18:35
Oh dear, a bit late

steven 2017-04-18 13:18:38
sorry about that

steven 2017-04-18 13:18:59
Has everyone done their parts?

ryan 2017-04-18 13:19:47
All good, I don't think we are all here also, I'm still refactoring, it's tedious as I have to make sure the database connection I abstracted hasn't broken anything.

steven 2017-04-18 13:21:20
I see, no problem

I've managed to finish my own section. The bookings page now lets the user select a specific employee to make a booking with. It makes sure theyre available (in both working times and making sure they arent booked for anything else)

ryan 2017-04-18 13:22:20
cool, i'll have a look after i've done this

steven 2017-04-18 13:25:18
i think ill continue working on it until friday though, i havent allowed the user to not select an employee
and i havent figured out a way of actually showing when an employee has been booked for a time
(so im only showing their working times currently)

chrissy 2017-04-18 13:30:29
Okay

chrissy 2017-04-18 13:30:49
Well i did user stories for booking

chrissy 2017-04-18 13:30:58
And ki da forgot what was next

steven 2017-04-18 13:31:27
you didnt look at Trello?

steven 2017-04-18 13:31:52
we outlined what everyone needed to do on there

chrissy 2017-04-18 13:32:29
Havnt been on trello recently

steven 2017-04-18 13:33:45
it probably wouldve been a good idea if you had forgotten what you were meant to do

I think we've all been pretty slack this past week, so we really need to step it up this one

steven 2017-04-18 13:33:57
pun unintended, but welcome

chrissy 2017-04-18 13:34:44
Hmm?

steven 2017-04-18 13:35:26
This week, im going to finish off the customer booking thing and then extend that into the "Owner making a booking for the customer" task, including the user story for that

steven 2017-04-18 13:35:54
Chrissy, I want you to update the database schema, and finish off the task you were meant to do last week

steven 2017-04-18 13:36:25
Ryan can keep going with refactoring the code, and if he finishes that can go onto editing pre-existing work periods

chrissy 2017-04-18 13:37:07
Err

steven 2017-04-18 13:37:10
Asli, you can finish off data logging (let me know asap if you cant get that working by friday so i can help), and when you finish that you can start working on GUI usability

chrissy 2017-04-18 13:37:19
That was totally not assigned to me earlier

steven 2017-04-18 13:37:37
The database schema was not

steven 2017-04-18 13:37:46
you were meant to Add booking types/ activities

steven 2017-04-18 13:37:54
this was discussed last week

steven 2017-04-18 13:38:18
and the Trello activity log for the card agrees

chrissy 2017-04-18 13:38:31
Add booking type yes

chrissy 2017-04-18 13:38:37
But not database schema

steven 2017-04-18 13:38:40
correct

steven 2017-04-18 13:38:44
but we need to keep moving

steven 2017-04-18 13:38:50
so im assigning more tasks

steven 2017-04-18 13:38:59
the schema should only take 30 minutes, tops

chrissy 2017-04-18 13:39:16
Kinda feel like relying on slack only isnt as helpful

steven 2017-04-18 13:39:34
thats why trello exists

chrissy 2017-04-18 13:39:36
Needs verbal

chrissy 2017-04-18 13:39:43
Like actual talking

steven 2017-04-18 13:39:54
why do you say that?

chrissy 2017-04-18 13:40:08

Doesnt feel like an open discussion

steven 2017-04-18 13:40:15
thats more just me

steven 2017-04-18 13:40:20
im just being a dictator right now

chrissy 2017-04-18 13:40:24
Just text only is like ur here or not

chrissy 2017-04-18 13:40:41
And then the spam

steven 2017-04-18 13:40:50
well, did you want to come into uni and do an inperson meeting?

chrissy 2017-04-18 13:41:12
Well there is an alternative called group call

steven 2017-04-18 13:41:26
there is

steven 2017-04-18 13:55:30
I have updated the Trello board to show all the new tasks that I have assigned everyone, I would like everyone to go on there and confirm the tasks that they have been assigned as well, so i know there arent any problems currently

If there are any problems with these task assignments, let me know asap and we can discuss what we can do to either help out, or change tasks around to make sure we're working at peak performance.

ryan 2017-04-18 13:56:52
All good for me.

steven 2017-04-18 13:59:58
Awesome, Thanks Ryan

asli 2017-04-18 14:21:28
o god it took me ages to do this sozzy

asli 2017-04-18 14:24:21
this was pre hard for me so 😕

asli 2017-04-18 14:24:56
it's working now and i have pushed, i just need to add few more stuff now, I'll prolly finish it today

ryan 2017-04-19 14:51:51
Yo, I've finally managed to abstract the database connection into a class, we don't need to keep setting up the connection everytime we want to query the database, if you are querying the database, there is a file you need to include into the php file depending if it's a customer facing page or a process/backend file.

For Front facing pages, insert code below to use the class, before calling the functions,
/* Instantiate database connection object, called $db*/
include('./assets/databaseClass.inc');

For Back end processing, insert code below to use the class, before calling the functions,
/* Instantiate database connection object, called $db*/
include('./databaseClass.inc');

To call the functions used to query the database, use either,
To Retrieve information from the database:-
$db->select(<Select_Query_Goes_Here>);
To Insert information into the database:-
$db->insert(<Insert_Query_Goes_Here>);

ryan 2017-04-19 14:53:52
Should I merge this into the master branch now, or are we merging into the Developement branch first?,
I've included the logging change that Asli has pushed into the master branch into my Refactor, branch also.

steven 2017-04-19 15:07:59
Push into developer, we should use that until we get to the next release candidate

Channels

Push into developer, we should use that until we get to the next release candidate

steven 2017-04-19 15:08:06
Nice work though

asli 2017-04-19 15:14:22
I finished the validations also

asli 2017-04-19 15:14:27
gonna push it sometime

asli 2017-04-19 15:34:12
ok finished

ryan 2017-04-22 12:07:59

What I've done so far,

1. Refactored/abstracted database connection, Just finishing off the editing Working periods implementation now.
2. Written user story and written test cases for the Editing working period.
3. Needed to add a column into database, workperiod table, called workperiodID, to allow editing the workperiod to be easier, updated the UML database schema to match it, will post this soon also.

asli 2017-04-22 12:59:40
Sorry i was sleeping

asli 2017-04-22 12:59:52
Yeah I've done datalogging and validation

asli 2017-04-22 13:00:04
So you can give me some other work thx

ryan 2017-04-22 13:48:28
Hmm, have you pushed your validation and the completed logging into development branch?

ryan 2017-04-22 13:50:08
I can't find the changes for the password validation, on the index page.

asli 2017-04-22 13:52:10
oh no they're all in "datalogging and validation" branch

ryan 2017-04-22 13:53:53
oh, if you've deemed that it's done, can you push it into the development branch.

steven 2017-04-24 18:46:01
Sad life, we only got 90/100 for our part a submission :(

chrissy 2017-04-24 18:49:54
Haha dont be too dissapointed

chrissy 2017-04-24 18:50:11
Overall its a hd

chrissy 2017-04-24 18:50:22
Think of the positives steven

steven 2017-04-24 18:50:36
I demand 95+!!!

steven 2017-04-24 18:54:11
Joking aside, well done team
Hopefully we can keep but up for parts b and c

Chrissy, I don't know if you discussed it with Ryan but he's going to be helping you with implementing the activities section using the database, where the activities themselves are tables

And lastly submission of going to be ok Sunday, we only have two minor sections to complete, so we should easily be done by Saturday

As always let me know asap if there are any issues

chrissy 2017-04-24 18:56:46
We can work on it tomorrow

steven 2017-04-24 18:57:10

Channels

#general
#random

Tomorrow is a public holiday
Unless you wanted to go into uni just to work on it

chrissy 2017-04-24 18:57:14
Ryan hasnt spoken to be directly yet

chrissy 2017-04-24 18:57:23
Uni will be closed

chrissy 2017-04-24 18:57:31
It will be working remotely

steven 2017-04-24 18:57:38
Well discus with him how you want to go about working on it

chrissy 2017-04-24 18:57:40
And contacting here

steven 2017-04-24 18:59:11
Well if you use slack remember to make a private chat so me and Asli's phones arent buzzing constantly :P

chrissy 2017-04-24 19:38:06
Yeah k

asli 2017-04-25 11:54:33
ehhh mySQL Database doesn't run for some reason

asli 2017-04-25 11:54:44
it says Starting... then stopped

asli 2017-04-25 11:54:48
wut

asli 2017-04-25 11:54:52
am I damned

ryan 2017-04-25 13:17:09
Hey, we are omitting "As a BONUS, some Employees could perform only certain activities (see next spec).",
We don't have time to do this feature.

steven 2017-04-25 13:17:43
Fair enough

asli 2017-04-25 13:18:07
don't we have time still

steven 2017-04-25 13:18:25
Submission is on Sunday

asli 2017-04-25 13:18:54
o 😄

asli 2017-04-25 13:18:55
ok

chrissy 2017-04-25 13:38:46
Im not at home

chrissy 2017-04-25 13:38:49
Im helping family

asli 2017-04-25 14:09:56
allg

asli 2017-04-25 14:10:08
I believe i finished the user documentation addings

asli 2017-04-25 14:10:22
I put trello what i've added

asli 2017-04-25 14:10:28
cheerz guyzzz

ryan 2017-04-25 14:52:11
@ryan uploaded a file: and commented: Hey this is my proposal for the new page mockup to accommodate, "booking activity" and "allow the choice of choosing an employee".

steven 2017-04-25 14:52:59
Looks good

ryan 2017-04-25 14:56:09
@ryan uploaded a file: and commented: Hey this is my proposal for the database schema to accommodate, "booking activity" and "allow the choice of choosing an employee". Refer to the tables businessactivity booking activity and bookingEmployee

steven 2017-04-25 14:57:14
Btw I may have mentioned it, but since we are way behind and I think even after everyone has "finished" their parts, we'll have to do a lot of merging before things work flawlessly
So I'm setting a deadline of Thursday midnight for all development, so we've got Friday and Saturday which can be dedicated to getting what are have done fully operational

Saturday which can be dedicated to getting what are have done fully operational

Everyone ok with that?

asli 2017-04-25 15:01:34
Yeah we were working on my push the other day with Ryan

asli 2017-04-25 15:01:40
My part works now

asli 2017-04-25 15:01:44
So that's ok

ryan 2017-04-25 15:03:00
I'm cool with that,

The only parts need to be done now is Customer Booking (Choose activity and Choose employee if
they want),
and a page in the Business section for the owner to make a booking for the customer via
phone(This is the exact duplicate of Customer booking with an additional part for owner to select
the customer).

I'll wait until you all are done with the customer booking before I do this part.

steven 2017-04-25 15:03:36
I'm thinking my part and Chrissy's, since we're working on the same page merging will not be super
easy

steven 2017-04-25 15:03:38
Ok

steven 2017-04-25 15:03:42
I'll work on mine asap

ryan 2017-04-25 15:04:46
Do you want me to setup the new database schema, and all you need to do is create the additional
forms in php?

ryan 2017-04-25 15:15:21
@ryan uploaded a file: and commented: Just realised Lucid charts destroyed the relationship
between tables, here is the fixed Schema.

steven 2017-04-25 15:20:39
Yeah you can go ahead and implement it if you want

ryan 2017-04-25 15:22:54
Give me about 10 mins, and i'll push it into the development branch, so you and Christine will have
a clean working base that also has logging implemented and the latest feature in it.
Branch of the latest development branch version and you'll be good to go.

chrissy 2017-04-25 15:29:53
I am home now

chrissy 2017-04-25 15:30:04
Just reading what u guys wrote

ryan 2017-04-25 15:32:18
@ryan uploaded a file: and commented: Updated The UML again, realised I had put created the
bookingEmployee table incorrectly.

chrissy 2017-04-25 15:33:24
someone update me on the tasks

ryan 2017-04-25 15:49:27
Ok Steven and Christine, I've updated the database schema to accommodate both Customer,
Choose activity and Choose employee if they wish to do so.
This is located in the latest Development Branch.

ryan 2017-04-25 15:51:50
Christine, because we need to be able to pull the activities from the Database, you'll need to redo
your part, i've checked your part and it had hard coded times , which we want to pull from the
database instead.
I've helped you out by already modifying the database.

All you need to do is to make it so it pulls the activities from the database.

Refer to https://acrs-team.slack.com/files/ryan/F538USBT2/booking_activity_mockup.png

ryan 2017-04-25 15:51:50
@ryan mentioned a file: .

ryan 2017-04-25 15:52:23
For a rough idea of what each additional feature will do and how it will operate.

chrissy 2017-04-25 15:53:37
yeah ill work on that

chrissy 2017-04-25 15:53:43
and push to my branch for u to check

ryan 2017-04-25 15:56:32
Get the latest update of the Development branch first or update your branch to the new
Development Branch, before you work on it.
As it has the logging feature already in it, and the new database version.

chrissy 2017-04-25 16:07:39
when u mean pull activities

chrissy 2017-04-25 16:07:49
are u saying theres a set type of activity already?

ryan 2017-04-25 16:10:56
I've added in 2 activities in the new version of the database, (Cut and Wash).
So what you want to do is to populate the Services with these activities.
You do a $db->select(.....) query to get the information and print it as a <input type=checkbox ...>
element to achieve something similar to the mock picture.

chrissy 2017-04-25 20:00:07
i am done

chrissy 2017-04-25 20:00:16
cept someone needs to help me do the employee thingy

chrissy 2017-04-25 20:00:25
i push to dev branch?

chrissy 2017-04-25 20:00:47
i have to do my ruby assignment

steven 2017-04-25 20:01:03
Employee thingy?

chrissy 2017-04-25 20:01:24
something about available employees and those that cannot for the selected time slot

steven 2017-04-25 20:01:43
That is my section, so don't worry about it

chrissy 2017-04-25 20:01:52
so i push to dev branch yes?

steven 2017-04-25 20:02:01
Idk whether you should push to Dev, wait for Ryan's response on that

ryan 2017-04-25 20:02:25
Which branch are you currently working off chrissy

chrissy 2017-04-25 20:02:30
dev

chrissy 2017-04-25 20:03:12
if ur happy with the booking

chrissy 2017-04-25 20:03:21
u can add to business page

chrissy 2017-04-25 20:03:29
which hasnt have booking implemented yet

ryan 2017-04-25 20:04:04
Branch it and i'll check it out now.

chrissy 2017-04-25 20:04:24
wonder if i can add it to my old booking_js branch

ryan 2017-04-25 20:04:54
up to you, just tell me the branch name so i know which one.

chrissy 2017-04-25 20:05:59
i need some help with the branching

chrissy 2017-04-25 20:06:11
the messages im getting

chrissy 2017-04-25 20:06:26

Channels

#general
#random

i did git checkout booking_js

chrissy 2017-04-25 20:06:53
and got the msg please commit your changes or stash them before you switch

chrissy 2017-04-25 20:06:58
branches

chrissy 2017-04-25 20:07:06
unless i make a new branch

chrissy 2017-04-25 20:07:16
like booking_js_2

chrissy 2017-04-25 20:10:03
okay its on the new branch booking_js_2

chrissy 2017-04-25 20:11:31
sorry if it still has alerts

chrissy 2017-04-25 20:11:36
it was for debugging

chrissy 2017-04-25 20:15:04
theres still a wierd bug 🙁

chrissy 2017-04-25 20:15:12
if u find it

ryan 2017-04-25 20:15:34
What's the weird bug?

chrissy 2017-04-25 20:15:44
9am thing

chrissy 2017-04-25 20:15:51
haha

chrissy 2017-04-25 20:15:55
u cant book before 9am

chrissy 2017-04-25 20:16:08
unless that was totally intentional

ryan 2017-04-25 20:16:19
You mean it doesn't show up if the event is before 9 am?

chrissy 2017-04-25 20:16:24
yeah

chrissy 2017-04-25 20:16:35
sooo

chrissy 2017-04-25 20:16:39
u can put 10am

chrissy 2017-04-25 20:16:46
book 2 activities = 10:50

chrissy 2017-04-25 20:16:54
and change the time to 9

chrissy 2017-04-25 20:17:08
it erases the end time

chrissy 2017-04-25 20:17:33
but it seems okay when u edit the times after 9

chrissy 2017-04-25 20:17:36
like 10 to 11

chrissy 2017-04-25 20:17:38
and 11 to 10

chrissy 2017-04-25 20:17:58
the activities still in the affected time

chrissy 2017-04-25 20:18:10
so i dont know about that wierd bug

chrissy 2017-04-25 20:19:18
the 12am-pm also erases end time

chrissy 2017-04-25 20:19:51
u cant seem to book 9am

chrissy 2017-04-25 20:20:56
and 12am

chrissy 2017-04-25 20:21:12
i have to go shower

chrissy 2017-04-25 20:21:15
and work on ruby

ryan 2017-04-25 21:09:23
Ok, so you didn't account for the fact that if the integer reads a time of 9:00, and when it sets the value of the end time the format is (HH:MM:SS), for Example 09:00:00, that extra 0 in front is what caused it to not be able to set the value as all it is receiving is 9:00.

Also though you've done it to automatically calculate the end time, you need to also add the activity to the database, so the owner is able to see what service is to be done. I'll leave this part to you, the fixed version is in your branch.

ryan 2017-04-27 19:41:20
OK, All new Functionality are done,

- Customer choose Activity and choose Employee,
- Business Owner make a booking on behalf of the customer,
- Business Owner Edit work schedules
  Excluding the bonus functionality is finished, I've also modified the tables which display the bookings to also display the services and changed the date that is displayed to first show the date column, then start/end time column so it is easier to read.

steven 2017-04-27 19:42:01
Including Chrissy's part?

ryan 2017-04-27 19:43:04
Yes, I did it, and told her to write the written test case for customer make a booking with acitivies.

steven 2017-04-27 19:43:28
Hm ok, well done :)

ryan 2017-04-27 19:43:32
The only thing we need to update now are the documents, and then we can submit everything.

steven 2017-04-27 19:43:59
Yes sir

Did you want me to do the user document thingo again?

ryan 2017-04-27 19:47:04
Yep, so,
user document (Including logging and where to configure the logging level),
user stories(i've created and updated them already),
written test cases(I've done the one for editing employee shift, Need to do ones for customer booking, owner make a booking),
class diagram(Already done).

ryan 2017-04-27 19:47:50
That's what's needed now, also if we have time we can fix some smaller issues that we lost mark for in PART_A of the assignment.

steven 2017-04-27 19:48:10
Well, I'll update the user guide I made for part a on how to use the new functions... But I can't really do how logging works

ryan 2017-04-27 19:52:27
I think it would be better for Asli to add the user guide to configure the logging, she'll know more about it then us.
While you are going through the User manual, can you also update all the images?, As some of them have changed due to additional functionality.

steven 2017-04-27 19:52:53
Will do o7

Channels

When did you want it done by?

ryan 2017-04-27 19:54:16
Sunday is ok, since it's due on Monday. Or unless you want earlier, which I can do earliest is Saturday night.

ryan 2017-04-27 19:54:37
Just small bits and bobs now and we good to go.

steven 2017-04-27 19:54:45
Ok, I'll get it done by Saturday

asli 2017-04-27 20:50:57
I

asli 2017-04-27 20:50:59
already said

asli 2017-04-27 20:51:03
i added logging

asli 2017-04-27 20:51:07
to the user documentation

asli 2017-04-27 20:51:08
☹

asli 2017-04-27 20:52:34
I put everything into the user documentation that i have done for part B which are data logging, registration validation

asli 2017-04-27 20:52:42
and also editing/deleting bookings part

steven 2017-04-27 20:53:10
oh wow, well done 😄

asli 2017-04-27 20:53:23
don't underestimate me power

ryan 2017-04-29 12:10:06
Hi, Another SCRUM meeting,
What I've done,
-Completed Editing work times for employee,
-Helped Christine implement Adding activities to booking,
-Created a page for Owner to book for a Registered customer(Lawrence said don't -worry about customers who are not registered)
-Created all the User stories for the new functionalities,
-Created written test case for Editing work times for employee,

What I need to do,
-Create Written test case for Owner book for a Registered customer.
-Update System Diagram with File Organisation.(We lost marks for this last Submission).

Roadblocks,
-None

chrissy 2017-04-29 12:15:31
ahu

chrissy 2017-04-29 12:15:33
waddup

chrissy 2017-04-29 12:15:39
test case thingy is up

ryan 2017-04-29 12:18:41
hmm, can you also put the new ones in ,
https://docs.google.com/a/rmit.edu.au/document/d/1gdMa5hbGJLnHfw1KYaq18veNl384cecbyVeZQjlfnP4/edit?usp=sharing

chrissy 2017-04-29 12:19:17
why u put me to 20%

ryan 2017-04-29 12:20:09
20% of what?

chrissy 2017-04-29 12:20:13
the overall mark?

chrissy 2017-04-29 12:20:20
steven did

ryan 2017-04-29 12:20:23
I didn't.

chrissy 2017-04-29 12:20:36
and i dont think that is fair without consulting the whole group

ryan 2017-04-29 12:20:59
Are you talking about part A?

chrissy 2017-04-29 12:21:04
partB

chrissy 2017-04-29 12:21:10

ryan 2017-04-29 12:22:16
Also I just went over your test cases, the steps are incrementing up at every test cast, it's not resetting to 1.

chrissy 2017-04-29 12:23:13
i dont kno how to reset it on google doc

chrissy 2017-04-29 12:23:17
ive been looking for it

ryan 2017-04-29 12:23:43
You right click and reset numbering, on the first number.

ryan 2017-04-29 12:24:13
Right click on the line and scroll down to "Restart numbering".

chrissy 2017-04-29 12:25:46
im having different options when i right clck it

chrissy 2017-04-29 12:26:02
ok

ryan 2017-04-29 12:26:02
Right click on the text not the number.

chrissy 2017-04-29 12:26:12
i just need to highlight one

ryan 2017-04-29 12:26:49
Add the ones in your document to the original.

chrissy 2017-04-29 12:27:05
did u move that card

chrissy 2017-04-29 12:27:11
or is it still located in the old cards

ryan 2017-04-29 12:27:26
https://docs.google.com/a/rmit.edu.au/document/d/1gdMa5hbGJLnHfw1KYaq18veNI384cecbyVeZQjlfnP4/edit?usp=sharing

ryan 2017-04-29 12:27:41
That one, it's still in the old cards.

chrissy 2017-04-29 12:36:34
its been added

ryan 2017-04-29 12:36:56
thanks

asli 2017-04-29 13:05:57
i was gonna put 25 to myself this time

asli 2017-04-29 13:06:03
but if you think i deserve 20

asli 2017-04-29 13:06:05
i'll be ok with it

asli 2017-04-29 13:06:09
i guess

chrissy 2017-04-29 13:06:14
no asli

chrissy 2017-04-29 13:06:21
dont let them do that to u

asli 2017-04-29 13:06:38
hahaha i mean i didn't do too much i just did more than the first time

chrissy 2017-04-29 13:08:04
if steven agrees to

chrissy 2017-04-29 13:08:11
that would be 23.3 for us 3

chrissy 2017-04-29 13:08:19
msg him if u can

ryan 2017-04-29 13:10:48
Hey Asli, can you update the meeting logs.

asli 2017-04-29 13:11:40
ye will do

ryan 2017-04-29 13:11:52
Thanks

steven 2017-04-29 13:15:50
I thought I was fair with what I put

Channels

Maybe Asli should go up to 25 and me down to 25, but Ryan deserves at least 35%+ in all honesty.

Chrissy your section was less work than mine and Asli's, and the first Implementation you had was not up to spec, so me and Ryan (mostly Ryan) had to nudge you in the right direction, and do a fair bit of it for you as well
Including the database schema and its integration

I'm really just not in the mood to argue any more, so do with that information what you will
